APPROVAL of GLASS WOOL

Approval Report(s) : GTT's Document referenced MAT-RPT-002104 rev. 1.

Approval File: AF3026H08 rev.1

On the basis of the results of tests as compiled in the referenced Approval Report(s) it is confirmed that the Glass Wool LNG Board of nominal density 35 Kg/m³ produced and supplied by Saint-Gobain ISOVER Korea Co., Ltd. complies with the technical requirements of M3026 rev. 1 and is approved by GTT for use in NO96 CCS technologies.

The product is to be produced according to a dedicated quality control & production plan. It shall be supplied to a qualified subcontractor for transformation into glass wool elements, as defined in CCS engineering drawings and then used for insulating box filling.

Assurance of the quality and conformity of the delivered product is to be preserved by Saint-Gobain ISOVER Korea Co., Ltd. in accordance with GTT's M 3000.

Any modification to the fabrication procedure or material characteristics shall be submitted to GAZTRANSPORT & TECHNIGAZ for validation prior to acceptance. Complementary tests shall be requested before revalidation of the approval.
